Internships

Azure Cloud Engineering Intern , Krish Software Services, Bangalore

AUGUST 2022 – SEPTEMBER 2022

I worked on 2 projects during my internship. They are:

- **Disaster Recovery**

Disaster recovery is a cloud-based managed service that helps in instant recovery of the organization's critical systems after a disaster and provides you remote access to the organization's system in a secure virtual environment.

- **Web Application Monitoring**

Designing the web application, monitoring the web application and optimizing it's performance, writing scripts for cloud database handling.

Azure Cloud Engineering Intern , Sonata Information Technologies Limited, Bangalore

JUNE 2022 – AUGUST 2022

I worked on 1 project during my internship at Sonata:

- **Azure Billing**

Monitoring and fetching the usage details of various user accounts and managing billing for the same, and intimidating the user regarding their usage and billing through email.

Personal Projects

Alumni Management System, Bangalore

A web application for the purpose of managing the alumni of an institute. This web application was developed using HTML, CSS, JavaScript for Front-end, PHP for connectivity and MySQL for database.

Alegre, Bangalore

A music palyer application for android devices, with a good UI and UX experience which provides the users with an aesthetic way to listen to their favourite music. Kotlin and Java was used to develop the app. The app also enabled the user's to play audio files from their devices and also the songs present in our cloud datastore.
